

ADVANCED STIMULANT-FREE THERMOGENIC FAT LOSS CATALYST

DESCRIPTION

Thyrovate is a professional strength, stimulant-free, fat-burning accelerant and metabolic booster that's clinically formulated to target the midsection and, more specifically, that troublesome belly fat. This powerful supplement utilizes carefully researched ingredients that are clinically tested and reviewed to assist in weight loss while adding lean muscle mass. Since Thyrovate does not contain any stimulants, you get all the benefits of a premium fat burner and metabolic accelerant without the shakiness, crashing and other symptoms common to over-stimulation.

HOW IT WORKS

Thyrovate's cutting-edge formula accelerates fat loss and reduces appetite to promote effective weight loss in the midsection. Thyrovate™ contains ingredients that work together as a focused, efficient non-stimulant fat burner. These ingredients not only replace, but improve upon conventional stimulants.

THYROVATE®

ADVANCED STIMULANT-FREE THERMOGENIC FAT LOSS CATALYST*

THE INGREDIENTS IN THYROVATE

Thyrovate utilizes professional-grade, top-quality ingredients that were painstakingly selected for their superior results after years of research and development for superior fat-burning and metabolic boosting results. This unique, stimulant-free, formula has gone through extensive clinical trials and has been third-party Infrared and HPLC tested to ensure purity, identity verification and dosage. The main ingredients at work in this weight loss supplement include:

Supplement Facts			
Serving Size: 2 Capsules		Servings Per Container: 60	
	Amount Per Serving	%DV	
Non-Stim Thermogenic Fat Loss Blend			
	1.115g		
Japanese Mugwort Extract 20:1 (<i>Artemisia iwayomogi</i>) (herb)	300mg	**	
iFAS503® (Green tea (<i>Camellia sinensis</i>) leaf extract, Tuber fleeceflower (<i>Fallopia multiflora</i>) root extract, Chinese mistletoe (<i>Viscum album</i>) stem extract))	250mg	**	
Olive Leaf Extract (std. min. 40% Oleuropein) (<i>Olea europaea</i>) (fruit)	200mg	**	
Weak Jumby Pepper Extract 20:1 (Cirsimarín) (<i>Microtea debilis</i>) (herb)	140mg	**	
Sensoril® Ashwagandha Extract (std. min. 10% withanolides and 32% oligosaccharides) (<i>Withania somnifera</i>) (plant)	125mg	**	
Paradoxine™ Grains of Paradise Extract (std. min. 12.5% 6-Paradol) (<i>Aframomum melegueta</i>) (herb)	80mg	**	
Wakame Extract 10:1 (Fucoxanthin) (<i>Undaria pinnatifida</i>) (plant)	20mg	**	
Nutrient Bioavailability Enhancer			
	5mg	**	
Bioperine® Black Pepper Extract (std. 95% Piperine) (<i>Piper nigrum</i>) (fruit)			
**Percent Daily Value (%DV) not established			

Other Ingredients: Gelatin (Capsule), Magnesium Stearate, FD&C Red #40, FD&C Blue #1, Sodium Lauryl Sulfate.

250MG | iFAS503®

iFAS503 is a proprietary ingredient that combines green tea, fleeceflower and parasitic loranthus extracts. This potent compound inhibits fatty acid synthase (FAS), an enzyme that creates fatty acids, which your body either stores in fat cells, known as triacylglycerol, or uses as fuel during intense exercises.

125MG | Sensoril®

An herbal powerhouse, Sensoril's Ashwagandha extract boosts metabolism at the cellular level and increases ATP and other metabolites, leading to a sustained flow of energy. Sensoril is also used for its ability to crush cravings, ease fatigue and to improve anabolic muscle development for bigger gains, helping you add lean, shredded muscle.

300MG

JAPANESE MUGWORT EXTRACT

Scientifically known as *Artemisia iwayomogi*, Japanese mugwort is a plant that has been used in traditional Asian medicine and in culinary dishes in Korea. One study conducted on mice found that a 95 percent ethanolic extract of Japanese mugwort demonstrated potent fat burning properties while also enhancing glucose uptake into skeletal muscle cells. In Thyrovate™, Japanese mugwort extract acts as a metabolic booster.

200MG

OLIVE LEAF EXTRACT

Sourced from the leaves of olive plants, this extract enhances glucose uptake into skeletal muscle cells while demonstrating potent fat burning properties. It also contains phenolics like oleuropein, which has been clinically studied for its blood-pressure lowering effect and is a strong source of antioxidant and anti-inflammatory benefits.

140MG

WEAK JUMBY PEPPER

This unique antilipogenic flavonoid has been clinically tested for its ability to slow lipogenesis. Used in traditional South American medicine, this herb features cirsimarín, which improves fat mobilization so your body can burn off excess weight for a slimmer physique. Weak Jumby Pepper has also been shown to improve athletic performance and has a lipolytic level that's 20-times higher than caffeine.

80MG

GRAINS OF PARADISE EXTRACT

Paradoxine™ is an extract of Grains of Paradise, a spice related to ginger. Grains of Paradise produce a distinct sensation of heat, providing one of the thermogenic elements in Thyrovate that increases metabolism. It has also been known to improve digestive and intestinal health. Paradoxine™ is designed to increase your energy expenditure, boost your metabolic rate, and burn brown adipose fat tissue.

20MG

WAKAME EXTRACT

An edible seaweed common in Asian culture, Wakame is loaded with essential vitamins and nutrients, including Iodine, Calcium, Iron and Magnesium as well as vitamins A, C, E and K. Wakama helps the body regulate energy use for efficient weight loss.

5MG

BIOPERINE®

Bioperine® inhibits the process of glucuronidation in the liver, which maintains the levels of supplements and compounds in your body. In some cases, it can completely negate supplement usage, rendering them useless. But, by inhibiting this process, the piperine found in Black pepper extract allows those supplements to circulate through your body for maximum absorption.

WHY MYOKEM?

Through extensive research and development, Myokem has created unique formulas that use pharmaceutical quality ingredients for fat burning, muscle building, recovery and overall improved athletic performance. Each supplement has been painstakingly researched and developed extensively through clinical trials and scientific studies.

At Myokem, we focus on crafting unique formulas with the best quality ingredients that deliver

unrivaled results. We're not afraid to use unique, exotic nutraceuticals that most supplement makers won't go near because they are too expensive and difficult to source. In an industry that is more focused on profit margins and unfounded hype, Myokem is the perfect marriage of brains and brawn. Our innovative products are designed for people who are serious about seeing results and Myokem provides the nutritional tools to maximize your workout and provide optimum results.
